

We also produce: Brayseal | Brayslide | Braygrip | Wicketted & Collated | Conventional | Film on Reel & Lidding Film | Laminated Film & Braypouch Bags

Description

Bags can be collated together and supplied in wicketted and blockheaded format.

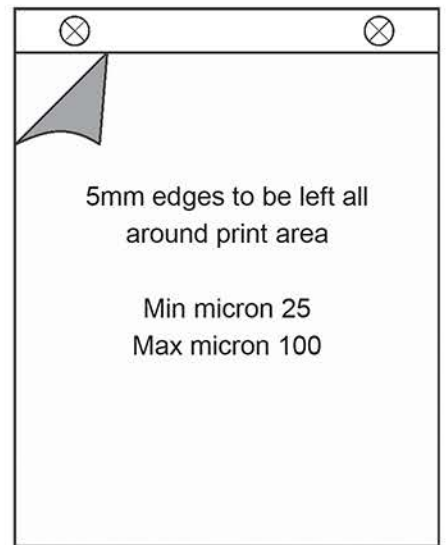

This aids packing speeds and is an ideal way for bags to be supplied on semi automatic and automatic lines (such as Newtec and Foremost amongst others). Bags can be collated in quantities between 200 and 500 with various wicket centres. Cards and bands can be added to give stability and good presentation when using automatic machines. A variety of features can be included to meet your specification, which includes Brayseal tape, lateral seal, euroslot and bottom gusset.

Manufacturing Specification

Min Width	—	105mm
Max Width	—	410mm
Min Depth	—	200mm
Max Depth	—	540mm

Please note:

Above is a guide only and dependant on whether goods are plain or printed and what machinery it can run on. If you require a different specification from the one above please contact our sales department on: 01522 559429

Service — Quality — Flexibility — Solutions
